

# Hire top talent. Keep them onboard.

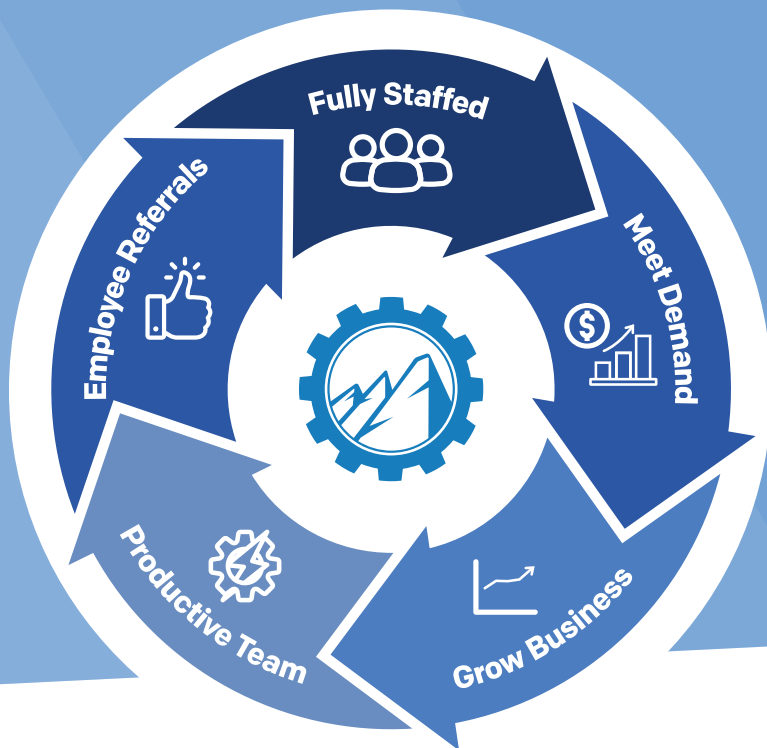

Hiring great talent is essential to the success of any business. But finding and attracting top-notch blue-collar workers can be a challenge, especially in today's ultra-competitive labor market. How do you attract more applicants? Where do you find quality candidates? And what can you do to get them to show up for the interview?

Team Engine's Hiring and Communication tools help you find high-quality candidates, hire top talent, and engage your teams — all from one easy-to-use dashboard. Finally, an HR Automation Platform built to address the unique needs of the blue-collar deskless workforce.

**Genz-Ryan**

“Team Engine reduced our time-to-hire by 60%, completely eliminated our phone interview no-shows, AND saved us over \$24,000 a year.”

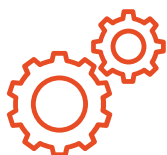

Katie Conway  
Recruiting and Training Manager

# Grow your team. Grow your business.

Too often, blue-collar businesses find themselves in a negative cycle. Being understaffed leads to foregone revenue, and eventually to the best employees getting burnt out and leaving. We turn that around by helping you get fully staffed and grow your business.

## Features & Benefits

### Automated Hiring

Increase productivity, reduce cost-per-hire, and speed up time-to-fill by streamlining your hiring process.

### Applicant Tracking

Review, respond to, and manage all your applicants from multiple sources in one place.

### Employee Communication

Keep everyone on the same page, and a finger on the pulse of what's happening in the field with centralized text-based tools.

## Crushing Hiring Goals

Heather Odenweller, Marketing & Recruiting Mgr for Landscapes by Terra, wanted to gain visibility to her full hiring pipeline, to respond to new applicants faster, and to reduce spend on job boards

With Team Engine's hiring dashboard, Heather got the visibility she needed to stay on top of communications with engaged applicants across all sources and respond to them faster. She found incredible time savings, and experienced a higher response rate when they stopped calling and started texting candidates through Team Engine's automated texting platform.
